## ***Introduction to TestNav™ 8: MC/TEI Document***

The [\*Introduction to TestNav 8: MC/TEI\*](#) document serves as an introduction to the new online navigation, online tools, accessibility features, and overall functionality and appearance of TestNav 8. It is highly recommended that teachers (or other adults) read the *Introduction to TestNav 8: MC/TEI* document prior to reading this guide, the *Guided Practice Suggestions* for the Grade 7 Reading practice item set.

Reading the *Introduction to TestNav 8: MC/TEI* document will give teachers an understanding of the features of TestNav 8 prior to working with students. In part, the document provides information on:

- opening the practice item sets within the required TestNav 8 Application,
- navigating through the practice item sets;
- answering technology-enhanced items (TEI) and multiple-choice items;
- using the online tools, and
- using the accessibility features available in TestNav 8.

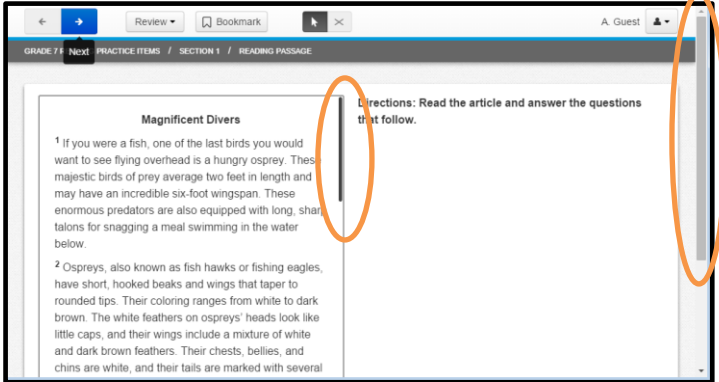

This important information should be used in conjunction with the information found in this guide.

### **Guided Practice Suggestions**

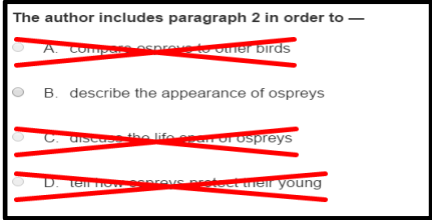

This guide provides specific item information for each question in the Grade 7 Reading practice item set, in table format. Along with the item information in the table, there is a column titled “Guided Practice Suggestions.” This column contains information for teachers as they guide students through the practice items. For instance, guided practice suggestions can state, “Use the eliminator tool to place a red ‘X’ on the answers that are not correct,” or, “Make sure students know how to select draggers and place them in the empty boxes using their mouse, keypad, or touchscreen.” Following the suggestions in the table will ensure that students are exposed to all of the different tools within TestNav 8, the different functionality features of TEI, and common messages that may appear as students complete TEI.

## **Grade 7 Reading Practice Item Information and Recommended Guided Practice Suggestions**

General Note about the Grade 7 Reading Practice Items: Grade 7 students will be taking a computer adaptive version of the reading Standards of Learning test; however, these practice items are presented in a traditional format to facilitate ease of use during instruction. The navigation, *Review* and *Bookmark* features will function differently in this practice item set than they will in the actual computer adaptive test (CAT). Please refer to the *Guided Practice Suggestions* column for more information about how these features can be used in the actual test.

On a desktop or laptop computer, have students practice using the bar along the right side of the reading passage to scroll through the passage, as well as the scroll bar on the right side of the screen if necessary. The scroll bar on the far right will only be seen on certain devices and if the computer screen is not in full screen mode. On a touchscreen, use the scroll bar as well as movement of the entire page (shift the page upward with a finger) to scroll through the passage.</p>  <p>Throughout the practice item set, move to the next or previous screen by selecting an arrow in the top left corner of the screen. An arrow with a blue background indicates the button is active and can be selected.</p>  |

| Reading Passage:<br><i>Magnificent Divers</i> | Nonfiction/<br>Informational |            | <p>Most reading passages will be displayed on the left side of the screen and the associated questions will be displayed on the right side of the screen; the split between the passage and a question is vertical (envision an “invisible vertical line” separating the passage and question). However, sometimes the reading passage will be displayed across the screen, and the associated questions will be displayed underneath the passage; the split between the passage and a question is horizontal (envision an “invisible horizontal line” separating the passage and question). A horizontal split will be used between the passage and question any time poetry is present, either as a single passage or as part of paired passages, or when the passage is image-based rather than text-based. An example of an image-based passage is an image of a Website or flyer.</p> |

The only tool that can be used to mark an answer to a question is the pointer tool. When a tool in the toolbar is active, it will be dark gray. In the picture below, the pointer is active.</p> <p>Have students select the eliminator tool located in the toolbar and then place a red “X” on the answers that are not correct.</p>  <p>To remove an “X” keep the eliminator tool active and select the “X” to remove it. Have students practice removing an “X.”</p>  <p>Tell students:<br/>Multiple-choice items must be answered in TestNav 8 by selecting the letter of the answer option or the option itself using the mouse, keypad, or touchscreen. On multiple-choice items, once an answer is selected, the item cannot be returned to an unanswered state (no answer selected) unless the student uses the eliminator tool to place an “X” over the selected answer and then selects the “X” again to remove it.</p> |

1 (Cont.)

s for Grade 7 Reading

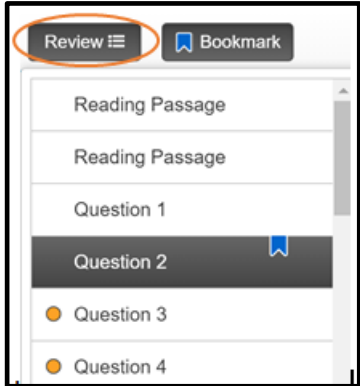

In an actual reading computer adaptive test:

- A student will be able to navigate forward and backward within a passage set (all of the questions associated with a particular passage). However, once a student navigates forward to the next passage, the student cannot navigate back to any question associated with a previous passage.
- There will be a screen at the end of the passage set telling students that once navigating forward, the student will not be able to return to any question in the passage set.
- A student cannot skip a question. The navigation arrows will remain grayed out and will not become active (blue) until the student answers the question on the screen.
- Please note that in some passages, vocabulary words are underlined. When taking the actual CAT, vocabulary words are no longer underlined in a passage due to the way questions are selected. Instead, the question will usually direct the students to the paragraph, line, or section where the tested word can be found.

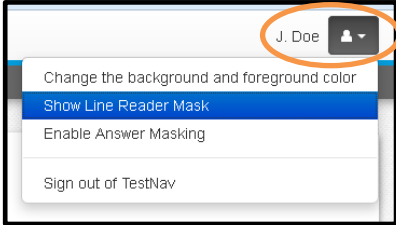

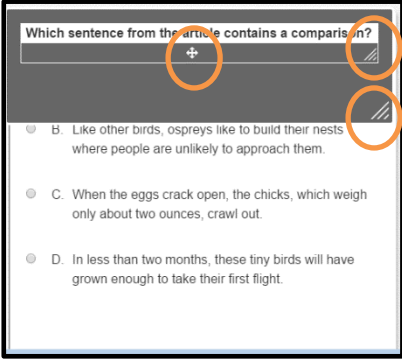

In order to familiarize students with the navigation of a reading CAT, a training test will be made available to school divisions. Notification will be sent out to school divisions as soon as it is available.

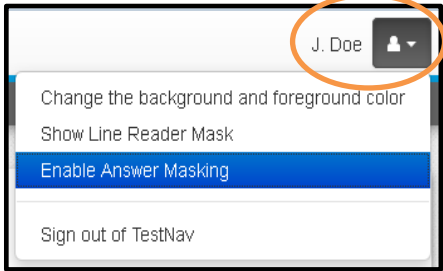

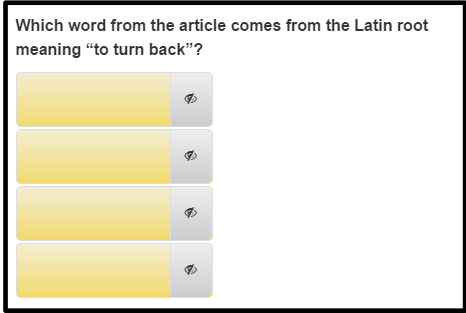

Remind students that placing an “X” on the incorrect answer choices does not complete the item. A selection must be made with the pointer tool in order for the item to be considered “Answered.”

This button would be used to mark a question for review at a later time.</p>  <p>Then have students select the <i>Review</i> button. A drop-down menu will appear. All of the questions in the current section will be listed. The question that the student is viewing on the screen will be shaded dark gray. This question has an orange circle next to it because it has not yet been answered. This question will also have a blue flag next to it because it was just bookmarked.</p>  <p>Have students close the <i>Review</i> drop-down menu and deselect the <i>Bookmark</i> button. Then, tell the students to look at the <i>Review</i> drop-down menu again to see that the question no longer has a blue flag.</p> |

| 4        | TEI<br>Drag and Drop | In this order from top to bottom:<br>OPINION, FACT,<br>FACT, OPINION | <p>Have students select draggers and place them in the empty boxes using the mouse, keypad, or touchscreen. Each dragger may be used more than one time.</p> <p>As soon as a dragger is selected and moved, each receptacle box turns blue and is outlined by a dotted line. This indicates that the dragger can be placed in any box—whichever location the student chooses as the correct location. However, sometimes a restriction is placed on where a dragger can be placed. A selected dragger, once selected and moved, can only be placed in the boxes that shade light blue.</p> <p>Selecting a dragger and moving it to the empty box may cause the remaining draggers to shift location in the answer option area.</p> <p>On some items the gray box will decrease in size when a dragger is removed. However, the gray box will expand to accept the dragger once the dragger is placed back over it.</p> <p>Have students practice moving draggers back to the gray box. Draggers will go back to their original location when returned to the gray box. Also, have students practice moving draggers back to the gray box. Draggers will go back to their original location when returned to the gray box.</p> <p>This item will not be considered “Answered” until each box has an answer in it.</p> |

| 23   | TEI<br>Hot Spot | All of these answers, and only these answers: <i>More durable than other materials, Named after its shape, and More costly than traditional materials.</i> | <p>To answer this question correctly, all of the correct answers in the gray box must be selected. When an answer is selected, it will be marked with a strikethrough line. In order to deselect an answer and remove the strikethrough line, the answer choice must be selected again. Have students practice selecting and deselecting an answer.</p> <div data-bbox="1192 539 1724 836" style="border: 1px solid black; padding: 5px;"> <p>Directions: Select all the statements that should be removed. Each selected statement will be marked with a strikethrough line.</p> <p>Based on the article, which statements are NOT true of the K Brick?</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> <del>More durable than other materials</del></li> <li><input type="checkbox"/> Lighter than other building materials</li> <li><input checked="" type="checkbox"/> <del>Named after its shape</del></li> <li><input type="checkbox"/> Allowed for an easier building method</li> <li><input checked="" type="checkbox"/> <del>More costly than traditional materials</del></li> </ul> </div> <p>Tell students that when there are an unspecified number of answers, the question will be considered “Answered” when one answer has been selected. This is so no clue or hint is given as to how many answers are correct</p> <p>*Remind students that since this is a NOT stem, the correct answers need to be focused on what the stem is indicating.</p> |
